CORRESPONDENCE

CHICAGO, ILL., June 23, 1893, World's Fair Grounds.

Editor Campbell Herald :

I have been to the big fair for three days, and consider it well worth coming a long distance to see; even if one could stay but three days. To give you an idea of the size of the buildings, I can say that any one of several would reach from the postoffice in Campbell to the grist mill. As to what is to be seen here, I can simply say there is nothing from any part of the country that could be brought here, but what is here, and those things that could not be brought they have made models of. The grandeur and beauty of the buildings surpass all description. It is a large city of palaces, all of the states and territories having buildings besides the regular exhibition.

There have been few robberies here mostly Lodgings are through confidence men. from 25 cents to one dollar per night; meals from 25 cents up. It is stated that all who will come here will have no difficulty in finding board and lodging. There were over one hundred and fifty thousand people on the grounds today, and it is said by those competent to know, that if there had been hundred thousand here it would not

have been crowded.

Buffalo Bill with his Wild West show is close to the grounds, and there is also Midway Plaisance opening directly from the fair, no admission being charged after you are inside the fair ground. This is filled with numerous attractions, among which are the Ferris wheel, which is 175 feet in diameter; John Brown's old fort at Harper's Ferry, and a correct imitation of Libbey Prison, and many other things too numerous to mention.

FRANKLIN, N. Y., }
June 27, 1893. }
Editor Campbell Herald:—
I left Campbell Saturday morning at 8:31 via the Lackawanna, and after waiting for a few hours in Binghamton, took the Deleware & Hudson for Unadilla, arriving there about three o'clock. Unadilla is a small village nestled among the hills and in the river valley. All of the walks in this place are of flagging from two to four inches thick. I remained in this place over Sunday, and on Monday morning left for Otego, ten miles farther up the valley, where is located the Bowers' casket factory. Taking the stage from there we go up the mountain rising 650 feet in two miles, and down the other side into the valley of the Ouleout to the beautiful village of Franklin, in Deleware beautiful village of Frankin, in December county. Here, too, the walks are all stone flagging, and as I was passing I saw men unloading a stone 8xII½ feet, which they said weighed about 4,500 pounds. Deleware County Institute is located here, and is the life of the town. When that institution is closed, as it is at the present time, (vacation) the town seems to have lost half of its life and energy. J. S. C.
