A Glimpse of the Indian Territory.

The home of the red man may seem far away, but when the traveler turns from the bustling city of New York, betakes himself to the comfortable sleeper, the next night finds himself in Chicago, and twenty-five hours later views the prairie fires of the Indian Territory, this land of the wild west appears near and the Indian is hailed as his neighbor! In fact, distance is so in the power of time that this once great globe is becoming, almost, alarmingly small!

While nature is yet asleep in the East, and is still dreaming of Santa Claus' last visit at the North, here she is fast transforming the brown sod with fields of emerald green and dotting the wide prairies with her bright blossoms. The fruit trees and hawthorn are in full bloom. Summer has come and demands that winter clothing be abandoned.

As the traveler takes his first view of Muskogee life, his attention is attracted to the large number of saddled ponies—ungroomed, of course—tied to the fence posts. They wait the bidding of their masters who have joined their companions leisurely whiling away the hours on the steps of the neighboring stores. It is early morning, but the inhabitants of this slow-going world are in blissful ignorance of the ever increasing pace at which the progressive world is moving. Black swine, which are everywhere, even in the woods, are also roaming the streets, while the friendly cow is not debarred the freedom of the village thoroughfare.

Muskogee is one of the principal Indian hamlets. The houses, for the greater part, are small, usually of one story, and destitute of cellars. A number of modern dwellings add much to the architectural features of the town; also, the Baptist, Methodist and Presbyterian churches, with the missions in connection with the two last named denominations, are doing a good work in educating and evangelizing the Indians.

The government restrictions of Washington city would hardly suit the independent Indian who, at his leisure, choosing a portion of land for his future estate, builds a fence around it as a token of ownership, none disputing his right, so it is within the limits of his tribe. If he chooses to enclose a portion of the public road within his farm no objections are raised, the obliging public turn one side forming a new highway. As to roads, they are not the smoothest, in fact the stranger is often at a loss to know when he is on or off the path; then, as there are no bridges, the fording of the streams at the time of high water is rather an interesting experience. It is well if the traveler have plenty of time at his disposal, as hours are sometimes consumed in patiently waiting for the subsiding of the waters. If the wild blanketed Indians of history were here expected, disappointment is sure. For these, one must journey among the Osage's or other than the five civilized tribes.

In Muskogee the colored man is as common as the red man and claims equal privileges, as he is the freed slave of the Indian. The blood of the red race in many cases has become so mixed with the white race that it is sometimes difficult to detect the Indian characteristics. The young women, with sufficient of the superior Cherokee blood to give the rich dark color to the complexion with her natural grace of form and the best education the territory can give, may well vie with her American sisters in all that a woman may attain. With their winning ways and Christian principles, they are capable of filling the place of wife and mother in such homes as should be the threshold of all that is true and noble.

—Rev. Alfred F. Pratt went to Fredonia, Saturday, and filled the pulpit of the Presbyterian church at that place on Sunday. His father, Rev. S. W. Pratt, has been filling this pulpit for some months.

—W. E. Joint of Savona, has been appointed postmaster at that place, but thanks to his excellency, the assistant postmaster-general, the Republican postmaster at Campbell, is still shuffling letters at the same old stand.

—The Bath Plaindealer in commenting on the Fourth of July celebration at this place, says that a cattle car was side-tracked and used for the purpose of a lockup. That is partly right; the car was here but luckily there was no use for the same.

—A notice of the death of A. E. Yost of Risingville, will be found in the Risingville items. Mr. Yost was town clerk of the town of Thurston and was well-known in Thurston and in Campbell. His death will be regretted by a large circle of friends.

—The Erie will run the first popular excursion to Chicago and the World's fair on Monday, July 24th. The rate will be one fare for the round trip. Tickets will be good for ten days. Time of special train and other details will be furnished next week.

—The town board will convene at the town clerk's office, on Monday of next week at 2:30 p. m., to take action with reference to building an iron bridge over Mead's creek in the place of the one that recently gave way with Alfred Wixson and Solomon D. Cushing.

—Our correspondents will please remember to sign their names to all letters to this office. Some correspondence this week narrowly escaped the waste-basket, but for the writing being recognized. Your name will not necessarily be published; it is merely required as an evidence of good faith.

—Farmers are very busy at present with their hay. The hay crop in this vicinity will not be as good as last year, but will be about the average. The continued drouth in June retarded the growth of the grass.

—Dr. Joseph S. Dolson who was born at this place and who has recently resided at Hornellsville, died Monday evening, aged 68 years. He was the son of Rev. Charles W. Dolson and was born February 6th, 1825. He practiced medicine in Bath for a long time, holding while there many offices of public trust, all of which he faithfully filled. As surgeon and assistant surgeon in the War of the Rebellion, he served his country well. The funeral was held from the Presbyterian church, Bath, on Wednesday. His wife, Dr. Amelia A. Dolson, and two sons, Charles A. and Edwin L. Dolson, survive him. Mrs. Lucinda Fulkerson of Thurston, is a sister.

The two men who were shot were repairing the road in front of the residence of Kneal. Both of the wounded men are alive at the present writing, although the chances of Anderson's recovery are doubtful.

The Home Newspaper.

A newspaper is the greatest help to the growth of a town that can be. It is a standing advertisement which always attracts. It gives more free puffs and explanations of the place than all others. It never lets pass a good opportunity to advocate the interests of its home enterprises. It helps all its churches and never fails to speak out for its schools; resents all insinuations against the character of the citizens and industries of the town; it lives but to benefit the community. To repay its untiring efforts it asks the support of the people, not in a begging manner, but as a recompense for its labor. It is entitled to a livelihood, because it gives more than it takes. It only asks for its rights, and these it should have.—Savona Review.

—Alonzo J. Whiteman, formerly of Dansville, was arrested at Monmouth Park, N. J., Thursday, charged with passing a worthless check on a New York man on June 1st. Whiteman is the same person on whom Robert J. Knox drew the drafts that were dishonored, causing his arrest and conviction in Mexico.

—An effort is being made in Bath to start a new paper to be called "The Society Journal."
