This permit application is for a subdivision of a 1.24 acre parcel from the existing 2.91 acre parcel. This property is zoned Ag. The regulations for this type of subdivision is 50,000 sq feet, 250 feet of road frontage, 75 feet of front yard, 50 feet of side and 80 feet of rear yard. Since there is currently a residence with water and sewer, this application will meet all the requirements for this proposal as this is an exception granted in the land use density control schedule section 5.1 Of the current zoning law for the Town of Campbell. The public Hearing was opened at 6:04 PM Darlene Beers poke on behalf of the proposed subdivision. They would like to sell a portion of the property to Pam Frank who is currently purchasing the trailer on the back end of the property. The property was parceled out in an odd way before so this subdivision will allow the property lines to be more conforming. A motion to approve Subdivision 2023-5 was made by Laura Bowen and seconded by Stanley Manning, the motion passed The Clerk gave the applicant copies of the stamped subdivision plats and explained that they had 62 days to file with the county.
